Office Action Summary	Application No. 09/721,862	Applicant(s) LAPSTUN ET AL.	
	Examiner Kimberly D. Nguyen	Art Unit 2876	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. Acknowledgement is made of Request for Continue Examination (RCE) filed 14 October 2004.

Claim Rejections - 35 USC § 112

2. Claims 8-14 and 21-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claim 8, as amended in Amendment filed 7 June 2004, contains "A method of coding a region including applying coded data to a part of the region, the coded data indicating both

a functional attribute of the part of the region and a relative location on the region, the method comprising the steps of:

printing the coded data on the relative location on the region using ink that is substantially invisible to the human eye; and

printing visible content on the relative location, wherein the visible content corresponds to the coded data;

wherein the visible content and the invisible coded data are printed substantially simultaneously"; wherein the last limitation of claim 8, which is "wherein the visible content and the invisible coded data are printed substantially simultaneously", could not be found in any part of the specification that the visible and invisible coded data are printed

Art Unit: 2876

substantially simultaneously. Therefore, independent claim 8 and its dependent claims 9-14 and 21-29 have been rejected, as set forth in this Office action, based on the subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Response to Arguments

In response to applicants' Amendments to the Specification that "The graphic data 2 and the coded data 3 are printed substantially simultaneously." (see page 2 of Amendment filed 10/14/04) to be added into page 8, lines 6-16 of the Specification, this subject matter must be removed from the claim and specification/drawing (as currently amended), because the above limitation was never disclosed in the originally presented disclosure nor in the drawing(s). Applicants have filed an RCE, which does not allow for the entry of "new matter." If applicants desire this "new matter" to be entered, a "Continuation In Part" must be filed. See MPEP 37 CFR 1.53 (b)(2). Accordingly, the above rejection as set forth in this Office action remains outstanding.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly D. Nguyen whose telephone number is 571-272-2402. The examiner can normally be reached on Monday-Friday 7:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee can be reached on 571-272-2398. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
